

20' SECURITY OFFICE/STORAGE UNIT

Hugg & Hall produces our own Job Offices for rental to the construction and other industries. These units are designed for HIGH SECURITY. They are built with all steel construction, metal door with deadbolt, bars over the windows, and lock box on storage end (available in storage/office combos). The ground level entry eliminates the need for steps and set up charges that you have with a mobile home type office unit. There are no EXTRA Charges for: step rental, anchoring, skirting, blocking and leveling. Units are ready to use upon delivery.
